FROM : John N. McMahon

2.  Background: At the NFIB on 5 July 1977 you approved the draft Attachment to DCID 1/2, modified to fold four S&T topics into the military category and to expand the definitions of Naval Forces, Air Tactical Forces, and Ground Forces. The document was subsequently prepared for printing and distribution to be made on 1 August 1977. Last Friday I asked for a sample of your signature for the printer to dub onto the Foreword. You then asked for an opportunity to review the document before it was printed, noting that you may not have focused on  as adequately as you might have wished. The attached Dylux copy is the printer's master, designed to provide the action officer with a final look before the presses roll.

3.  Staff Position: This document is designed intentionally to accommodate priority changes following its distribution. We have been holding several NIO-proposed priority changes in abeyance pending final publication. Any changes at this point will further delay publication and Community consideration of proposed priority changes. Unless you have fundamental problems with the document as it appears here, the IC Staff recommends that you approve it as it stands in order to expedite wide Community dissemination and to allow the normal change mechanisms to become operable at the earliest possible time.
